Manager

## PROJECTS

### EduBooks (10/2020 - Present)

- It is a fast library that works on the basis of QR-CODE, which allows you to download electronic books in places that are outside the library territory, thereby further improving the quality of service of the library.

### CRM of a company (03/2022 - 05/2022)

- It is an online platform that provides complete information about the company and its employees and makes it easy for company executives to manage it. This platform is created only for employees and managers of that company.
